The accompanying notes are an integral part of the condensed consolidated interim financial statements.

1. Nature of operations

Century Global Commodities Corporation (the "Company") is a limited liability company incorporated in Canada. In February 2016, the Company completed the continuation of its jurisdiction of incorporation from Canada to the Cayman Islands ("Continuation"). Its registered address is PO Box 309, Ugland House, Grand Cayman, KY1-1104, Cayman Islands. The Company's shares are traded on the Toronto Stock Exchange ("TSX").

The Company is primarily an exploration and mining company with assets in the Provinces of Newfoundland and Labrador, and Québec, Canada. Following the implementation of the Company's diversification strategy, the Company has expanded its operations into the distribution of food and the provision of food service in China.

These condensed consolidated interim financial statements were approved by the Board of Directors for issue on February 12, 2019.

2. Basis of preparation

The condensed consolidated interim financial statements of the Company and its subsidiaries (the "Group") have been prepared in accordance with IAS 34 *Interim Financial Reporting*. The condensed consolidated interim financial statements should be read in conjunction with the Group's audited consolidated annual financial statements for the year ended March 31, 2018 filed on SEDAR at www.sedar.com on June 28, 2018, which have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

3. Significant accounting policies

The significant accounting policies used in the preparation of these condensed consolidated interim financial statements are consistent with those disclosed in note 3 of the audited consolidated annual financial statements for the year ended March 31, 2018, except for the adoption of new and amended standards that became applicable to the Group from April 1, 2018.

The Group has applied the new and amended standards in accordance with the relevant transition provisions and resulted in changes in accounting policies as described in note 4 below. The adoption of these new and amended standards did not result in any retrospective adjustment of the Group's condensed consolidated interim financial statements.

Basis of measurement

The condensed consolidated interim financial statements have been prepared under the historical cost convention. These condensed consolidated interim financial statements are presented in the Canadian Dollar, which is the Group's presentation currency.

4. Changes in accounting policies

This note explains the impact of the adoption of IFRS 9 *Financial Instruments* and IFRS 15 *Revenue from Contracts with Customers* on the Group's condensed consolidated interim financial statements and also discloses the new accounting policies that have been applied from April 1, 2018, where they are different to those applied in prior periods.

IFRS 9 *Financial Instruments*

IFRS 9 replaces IAS 39 *Financial Instruments: Recognition and Measurement*, bringing together all three aspects of the accounting for financial instruments: classification and measurement; impairment; and hedge accounting. The adoption of IFRS 9 from April 1, 2018 resulted in changes in accounting policies which are set out below.

(a) Classification

The Group classifies its financial assets as those to be measured at amortized cost and those to be measured subsequently at fair value. The classification depends on the Group's business model for managing the financial assets and the contractual terms of the cash flows. For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income ("FVTOCI").

The Group has elected to designate its investments in marketable securities, previously classified as available-for-sale financial assets under IAS 39, as at FVTOCI as the investments are intended to be held for the foreseeable future.

(b) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss ("FVTPL"), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVTPL are expensed in profit or loss.

(i) Debt instruments

The Group's debt instruments comprise cash, short term bank deposits and trade and other receivables. They are assets held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest and are subsequently measured at amortized cost. Interest income from these financial assets is included in other income using the effective interest rate method. Any gain or loss arising on derecognition is recognized directly in profit or loss. Impairment losses are presented as separate line item in the statement of profit or loss.

(ii) Equity instruments

The Group's investments in marketable securities and other equity instruments are designated as at FVTOCI. Investments in equity instruments at FVTOCI are subsequently measured at fair value with gains and losses arising from changes in fair value recognized in other comprehensive income and accumulated in the investment fair value reserve, and are not subject to impairment assessment. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the equity investments, and will be transferred to retained earnings. Dividends from such investments are recognized in profit or loss when the Group's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment.

(c) Impairment

The Group recognizes a loss allowance for expected credit losses ("ECL") on financial assets which are subject to impairment under IFRS 9 (including trade receivables, finance lease receivable and other receivables). The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, twelve-month ECL represents the portion of lifetime ECL that is expected to result from default events that are possible within twelve months after the reporting date. Assessment are done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions

The Group records lifetime ECL for its trade receivables. For the Group's finance lease receivable and other receivables, the Group records a twelve-month ECL unless a significant increase in credit risk since initial recognition has occurred, at which point the Group will measure the loss allowance at lifetime ECL.

Upon the adoption of IFRS 9 on April 1, 2018, the Group's management reviewed and assessed the Group's existing trade receivables, finance lease receivable and other receivables for impairment in accordance with the transition provisions of IFRS 9. No retrospective adjustment was required on April 1, 2018 as a result of the assessment.

In accordance with the transition provisions set out in IFRS 9, comparative figures have not been restated. Accordingly, certain comparative information may not be comparable as the comparative information was prepared under IAS 39.

IFRS 15 *Revenue from Contracts with Customers*

IFRS 15 supersedes IAS 11 *Construction Contracts*, IAS 18 *Revenue* and related Interpretations and it applies to all revenue arising from contracts with customers, unless those contracts are in the scope of other standards. The new standard establishes a five-step model to account for revenue arising from contracts with customers. Under IFRS 15, revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract. The Group has adopted IFRS 15 from April 1, 2018 which resulted in changes in accounting policies as described below.

The Group's revenue arises from the distribution of food and the provision of food service. During the period, approximately 88% of the Group's revenue was contributed by the food distribution operation.

(a) Distribution of food

The Group distributes food products to wholesalers and retailers. Each contract with a customer generally includes one performance obligation. Sales are recognized at a point in time when control of the goods has transferred to the customer, being when the goods are delivered to the customer, the customer has full discretion over the use of the goods, and there is no unfulfilled obligation that could affect the customer's acceptance of the goods. Transaction price of the contract with customer is generally fixed and agreed upon prior to delivery of the goods. Delivery occurs when the goods have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied.

Certain customers of the Group are entitled to volume discounts based on aggregate sales over a year. Revenue from these sales is recognized based on the price specified in the contract, net of the estimated volume discounts. Accumulated experience is used to estimate and provide for the discounts, using the expected value method, and revenue is only recognized to the extent that it is highly probable that a significant reversal will not occur. A contract liability is recognized for expected volume discounts payable to customers in relation to sales made until the end of the reporting period. No element of financing is deemed present as the sales are generally made with a credit term of 60 to 90 days, which is consistent with market practice.

A receivable is recognized when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

(b) Provision of food service

The Group provides food service and serves food and beverages to end customers. Each contract with a customer generally includes one performance obligation. Revenue from the provision of food service is recognized at a point in time when the Group delivers the goods and services to the customer and the customer accepts the goods and services. Transaction price of the contract with customer is generally fixed and agreed upon prior to delivery of the goods and services. Payment of the transaction price is due immediately when the goods and services are delivered by the Group and accepted by the customer.

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Group does not adjust any of the transaction prices for the time value of money.

In accordance with the transition provisions of IFRS 15, the Group has adopted the new rules retrospectively. The adoption of IFRS 15 did not result in any retrospective adjustment of the Group's condensed consolidated interim financial statements.

5. Critical accounting estimates and judgments

The Group makes estimates and assumptions concerning the future that are believed to be reasonable under the circumstances. Estimates and judgments are continuously evaluated and are based on management's experience and other factors, including expectations about future events. The critical accounting estimates and judgments applied in these condensed consolidated interim financial statements are consistent with those disclosed in note 4 of the audited consolidated annual financial statements for the year ended March 31, 2018.

6. New standards and interpretations issued but not yet effective

The following is a list of standards and interpretations that have been issued and are not yet effective.

IFRS 16 *Leases*

Effective for the Company's annual consolidated financial statements beginning April 1, 2019, this standard replaces the current guidance in IAS 17 and requires lessees to recognize a lease liability reflecting future lease payments and a "right-of-use asset" for virtually all lease contracts. The IASB has included an optional exemption for certain short-term leases and leases of low-value assets. The Company is currently evaluating the impact of adopting this standard on its consolidated financial statements.

7. Segment information

The Group's operating segments are as follows:

(i) the mining segment, which engages in the exploration and development of mineral projects in Canada and the investment in global mining securities;

(ii) the food segment, which engages in the distribution of food and the provision of food service in Hong Kong and mainland China; and

(iii) the corporate segment, which mainly represents the Group's corporate and managerial functions.

(Expressed in Canadian Dollars, unless otherwise stated)

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the condensed consolidated interim financial statements. In measuring segment performance, segment assets and segment liabilities, management applied certain judgments and assumptions to determine the appropriate allocation of certain centrally incurred costs, jointly used or shared assets and liabilities for individual segment. However, the Group's financing activities (including cash and cash equivalents, short term bank deposits and bank interest income) are managed on a Group basis and are presented under the corporate segment.

The following tables present information for the Group's operating segments for the nine months ended December 31, 2018 and 2017, respectively. Comparative figures for the nine months ended December 31, 2017 have been restated accordingly.

(i) Trade receivables are non-interest bearing and are generally on terms of 60 to 90 days.

(ii) Labec Century and WISCO Century Sunny Lake are the Company's joint venture and the operator of the Company's Sunny Lake Joint Venture respectively. Please refer to note 24(a) for the details of the balances.

10. Lease receivable

The Group has entered into certain lease arrangements to lease out two drills for terms of 4 years until 2022. Pursuant to the lease agreements, the lessee shall pay to the Group an initial payment before delivery of the drills and monthly payments over the lease term. At the end of the lease, the lessee can purchase the drills by paying a purchase price. Alternatively, the lessee can exercise an early buyout option to purchase the drills by making a lump sum payment to the Group for the above amounts. The leases qualified as finance lease arrangements.

Trudeau gold property

The Trudeau gold property is an early stage gold-focused polymetallic exploration project, located approximately 35 kilometres northwest of the city of Rouyn-Noranda, Quebec. Century Metals Inc. ("CMI"), formerly known as Trudeau Gold Inc., a wholly owned subsidiary of the Company, holds a 100% interest in the property consisting of three non-contiguous claim groups surrounding Duparquet Lake, namely Fabie, Trudeau and Eastchester.

Impairment assessment of iron ore properties

At March 31, 2016, with the weakening iron ore market condition, an impairment review was performed on both the Duncan Lake property and Sunny Lake property, and the review has resulted in impairment charges of $17,494,260 and $3,160,465 to the Duncan Lake property and Sunny Lake property, respectively. After the impairment charges, the net book value of both properties became nil. Further details about the assumptions and conditions pertaining to the impairment review are provided in note 15 of the audited consolidated annual financial statements for the year ended March 31, 2016.

At December 31, 2018, the net book value of the above two properties remains nil. In the event that the prospects for the development of the mineral projects are enhanced in the future, an assessment of the recoverable amount of the projects will be performed at that time, which may lead to a reversal of part or all of the impairment that has been recognized.

Duncan Lake property

On May 20, 2008, the Company's wholly-owned subsidiary Canadian Century Iron Ore Corporation ("Canadian Century") entered into an option and joint venture agreement (the "Augyva Agreement") with Augyva Mining Resources Inc. ("Augyva") to have an option to obtain a 51% interest in the Duncan Lake property once $6.0 million has been funded on or before the fourth anniversary of the date of the Augyva Agreement. The Group completed its funding commitment of $6.0 million on the Duncan Lake property in November 2010 and, as a result, obtained a 51% interest in this property. Canadian Century recognized its share of costs incurred in the Duncan Lake property. Canadian Century had an additional option to obtain a further 14% of the Duncan Lake property by spending an additional $14.0 million in exploration costs, construction, and/or operating costs or completing a feasibility report on or before the eighth anniversary of the date of the Augyva Agreement. In October 2012, Canadian Century notified Augyva that it has expended a further $14.0 million on the project under the Augyva Agreement. The transfer registration of 14% was completed in May 2013.

On July 13, 2018, Automotive Finco Corp., formerly known as Augyva Mining Resources Inc., served Canadian Century, a wholly owned subsidiary of the Company, a notice of arbitration. Augyva is claiming a sum of approximately $725,000 owed by Canadian Century based on the Augyva Agreement that was entered into between the two parties in May 2008 over the exploration of the Duncan Lake property. The claim amount is related to amounts derived from certain investment tax credits received from Quebec tax authorities to which Canadian Century was entitled under the applicable tax laws since November 16, 2012.

Having reviewed the arbitration notice and consulted with legal counsel, management is of the opinion that Canadian Century had delivered all required payments to Augyva according to the Augyva Agreement. Accordingly, no provision has been made in the Company's condensed consolidated interim financial statements in reaction to the notice of arbitration from Augyva.

As of December 31, 2018, the Group has a 65% registered interest in the Duncan Lake property and is in the process of registering approximately an additional 3% interest as a result of its contribution to the exploration expenditure incurred for the property subsequent to the earn-in of its 65% interest in the property.

Sunny Lake property

On December 19, 2011, the Company and WISCO International Resources Development & Investment Limited ("WISCO") entered into the Sunny Lake joint venture agreement (the "Sunny Lake JV Agreement") that governs the joint venture formed between the Company and WISCO for the exploration and development of the Sunny Lake property (the "Sunny Lake Joint Venture"). Under the Sunny Lake JV Agreement, WISCO could earn a 40% interest in the Sunny Lake property by investing a total of $40.0 million in the Sunny Lake Joint Venture.

The operating company for the Sunny Lake Joint Venture, WISCO Century Sunny Lake Iron Mines Limited ("WISCO Century Sunny Lake" or the "Operator"), was incorporated on June 29, 2012. The Sunny Lake property was held in trust for 0849873 B.C. Ltd. ("B.C. Ltd."), a wholly-owned subsidiary of the Company, and WISCO Canada Sunny Lake Resources Development & Investment Limited ("WISCO Sunny Lake") in accordance with their interests in the Sunny Lake Joint Venture under the Sunny Lake JV Agreement.

On November 28, 2012, the Company and WISCO entered into a closing agreement (the "Sunny Lake Closing Agreement"), providing WISCO Sunny Lake with an option to purchase from B.C. Ltd. up to a 40% interest in the Sunny Lake Joint Venture.

On April 2, 2013, pursuant to the Sunny Lake Closing Agreement, WISCO Sunny Lake acquired a 17.1% interest in the Sunny Lake property for the consideration of $8,612,875 paid to B.C. Ltd. The amount represents the exploration expenditure of $17,096,459 previously incurred by the Group, less estimated tax credits relating to such exploration expenditures of $8,483,584 that are available to the Group. As a result of this payment, WISCO Sunny Lake acquired a 17.1% interest in the Sunny Lake property.

Subsequent to the acquisition of ownership interest of 17.1%, WISCO Sunny Lake acquired an additional 1.8% interest in the Sunny Lake property for the consideration of $1,800,000, increasing its interest in the property to 18.9%. On January 1, 2016, WISCO Sunny Lake was amalgamated with WISCO Canada ADI Resources Development & Investment Limited ("WISCO ADI").

As at December 31, 2018, the Company owns 81.1% of the Sunny Lake property and the remaining funding obligation of WISCO ADI to earn in up to a 40% of interest in the property is $21.1 million.

The principal activities of Labec Century are to explore and develop the Attikamagen property. Since January 1, 2016, Labec Century reduced its exploration activities to claims maintenance only to preserve cash for the iron ore market to recover in the future. The principal place of business is in the Province of Québec, Canada. Labec Century is the sole owner of the Attikamagen property.

On December 19, 2011, the Company and WISCO entered into a shareholders agreement (the "Attikamagen Shareholders Agreement") that governs the joint venture to be formed between the Company and WISCO for the exploration and development of the Attikamagen property. Under the Attikamagen Shareholders Agreement, WISCO can obtain a 40% interest in the Group's share of the Attikamagen property by investing a total of $40 million.

(Expressed in Canadian Dollars, unless otherwise stated)

On September 26, 2012, the initial closing procedures prescribed in the Attikamagen Shareholders Agreement were completed, with WISCO Canada Attikamagen Resources Development & Investment Limited ("WISCO Attikamagen") purchasing from Labec Century:

(i) 40 million Class A voting common shares, representing 40% of the outstanding voting common shares of Labec Century, for $4,000, and

(ii) 20 million Class B non-voting shares, representing 25% of the outstanding non-voting common shares of Labec Century, for $20 million.

As part of a reorganization completed prior to the initial closing procedures, the Company's wholly-owned subsidiary, Century Iron Ore Holdings Inc. ("Century Holdings"), purchased:

(i) 60 million Class A voting shares, representing 60% of the outstanding voting common shares of Labec Century, for $6,000, and

(ii) exchanged its then 100% outstanding common shares of Labec Century for 60 million Class C non-voting shares, representing 75% of the outstanding non-voting shares of Labec Century.

As a result of completion of the initial closing transactions in 2012, Labec Century ceased to be a subsidiary of the Group and became a joint venture of the Group that is accounted for in accordance with IFRS 11. The disposition of the subsidiary resulted in a non-cash accounting gain of $47,722,258 for the year ended March 31, 2013.

On September 19, 2013, WISCO Attikamagen purchased an additional 20 million Class B non-voting shares for a subscription price of $20 million. After the subscription, WISCO Attikamagen's ownership is increased to 40% of the non-voting shares of Labec Century, while Century Holdings' ownership is reduced to 60% of the non-voting shares. On January 1, 2016, WISCO Attikamagen was amalgamated with WISCO ADI.

As at December 31, 2018, the Group continues to own a 60% interest in Labec Century.

(i) Trade payables are non-interest bearing and are generally paid within 30 to 60 days.

(Expressed in Canadian Dollars, unless otherwise stated)

(ii) In July, September and November 2018, CMI has completed three tranches of the Special Warrant Private Placement and issued a total of 7,061,999 special warrant certificates to its subscribers. Upon the issuance of the special warrant certificates, subscription deposits of $423,720 were transferred to special warrant reserve. For details, please refer to note 19.

16. Share capital

Authorized

Prior to the Continuation, authorized share capital was unlimited number of common shares, with no par value. Upon the Continuation on February 1, 2016, authorized share capital was changed to 5,000,000,000 ordinary shares, with $0.001 par value each.

Issued and fully paid

At December 31, 2018, the Company had 98,504,571 ordinary shares issued and outstanding, representing an amount of $117,057,236. The changes in issued share capital for the period are as follows:

The Group has adopted an equity incentive plan (the "Plan") which is administered by the Board of Directors of the Group. The Plan provides that the Board of Directors of the Group may from time to time, at its discretion and in accordance with TSX requirements, grant to directors, officers, employees and consultants to the Group, options to purchase shares and other forms of equity-based incentive compensation, provided that the number of shares issued and reserved for issuance will not exceed 15% of the issued and outstanding shares.

(Expressed in Canadian Dollars, unless otherwise stated)

Share options

Share options granted under the Plan are exercisable for a period of up to 5 years or 10 years from the date of grant. Options issued pursuant to the Plan will have an exercise price determined by the directors of the Group provided that the exercise price shall not be less than the price permitted by the TSX.

The share options outstanding as of December 31, 2018 are as follows:

	Number of options	Weighted average exercise price $
Balance – March 31, 2017	10,087,500	0.71

750,000	0.345	June 23, 2017 to June 22, 2027
8,717,500		

As of the balance sheet date, the weighted average remaining contractual life of the outstanding share options is 6.9 years, and 7,055,835 options are vested and exercisable.

Share awards

Under the Plan, the Board may grant awards of share units subject to vesting and other terms and conditions at its discretion as to performance, milestones, other internal or external conditions, or length of the grantee's employment or service provision. The Board shall also determine at its discretion, at any time before or after vesting until actual settlement, whether payment under the share units will be made in shares, cash, securities or other property, or a combination thereof.

(Expressed in Canadian Dollars, unless otherwise stated)

Share units outstanding under the Plan are shown as follows:

	Time-based (i)	Operational (ii)	Financial (iii)	Number of share units	Weighted average fair value at the measurement date $

Balance – December 31, 2018	-	9,750	9,750	19,500	0.40

The share units have been allocated to the grantees under three types of vesting conditions: time-based targets, operational targets and financial targets.

(i) **Time-based target**: the share units will be fully vested if the individual grantee is still employed by the Company on the third anniversary of the grant date.

(ii) **Operational target**: the share units will be vested upon the achievement of certain mining and exploration-related targets set out by the Board. The actual amount of share units to be vested under these operational targets will vary depending on the level of performance relative to the targets based on an award multiplier of 0% to 200%. The vesting date of the share units will be the earlier of: five years from the grant date or the achievement dates of the respective operational targets. Management estimated that the period of vesting would occur between November 2018 and March 2020.

(iii) **Financial target**: the share units will be vested if the two-year average annualized cash costs of iron ore produced and shipped for the projects of the Company or under its joint arrangements meet certain target set out by the Board and the two-year earnings before interest, taxes, depreciation and amortization (EBITDA) of the projects is positive. The actual amount of share units to be vested under the financial target will vary depending on the level of performance relative to the target based on an award multiplier of 0% to 200%. The vesting date of the share units will be the earlier of: five years from the grant date or the achievement date of the financial target. Management estimated that the period of vesting would occur between November 2018 and March 2020.

The fair value of the share units granted was estimated based on the market price of the Company's shares on the date of grant.

18. Warrants

The warrants issued and outstanding as of December 31, 2018 are as follows:

	Number of warrants	Weighted average exercise price $
Balance – March 31, 2018	1,000,000	2.50
Expired	(1,000,000)	2.50
Balance – December 31, 2018	-	

On November 29, 2013, the Company issued to Champion 1 million warrants as part of the consideration paid for the acquisition of Champion's remaining interest in the Attikamagen property. The warrants have an expiry date of November 29, 2018 and are exercisable between November 30, 2017 to November 29, 2018 at an exercise price of $2.50. The warrants have expired on November 29, 2018.

The fair value of the warrants on the date of the grant was estimated at $20,000 at the date of issue using a binomial option pricing model. The assumptions used were as follows: (i) annual risk-free interest rate of 1.07%, (ii) implied volatility of 34% and (iii) expected life of 5 years.

Labec Century has agreed to pay the Company the fair value of any warrants exercised by Champion based on the difference between the exercise price and the market price at the exercise date of any warrants. Champion has not exercised any warrants during the exercisable period of the warrants, no derivative asset was recognized as a result.

19. Special warrant reserve

	$
Balance – March 31, 2018	-
Issuance of CMI's special warrant certificates	423,720
Balance – December 31, 2018	423,720

On March 8, 2018, CMI, formerly known as Trudeau Gold Inc., offered to investors to subscribe for its special warrants at a subscription price of $0.06 per unit. Each special warrant will automatically convert into one common share of CMI upon the earlier of (i): the prospectus qualification of CMI's common shares; and (ii): the six-month anniversary of the issuance of the special warrants. With the consent of the holders of the special warrants issued on July 9, 2018, the latter conversion condition is subsequently extended to the nine-month anniversary of the issuance of the special warrants for the special warrants issued on July 9, 2018.

(Expressed in Canadian Dollars, unless otherwise stated)

On June 20, 2018, the Company announced that it is planning a spin-out transaction (the "Spin-out Transaction") whereby a portion of the shares of its wholly owned subsidiary, CMI, will be distributed pro-rata to shareholders of the Company, by way of a dividend-in-kind. Subject to regulatory approvals of the listing of CMI's common shares on the TSX Venture Exchange, the Spin-out Transaction is expected to be completed during the Company's 2018-9 fiscal year. The Spin-out Transaction will create CMI as an independent public company.

In advance of the Spin-out Transaction, CMI has completed a series of private placements of up to 12,000,000 special warrants at a price of $0.06 per unit (the "Special Warrant Private Placement"). The Company has obtained approval of its shareholders on the Special Warrant Private Placement by way of a written consent from the holders of a majority of the outstanding ordinary shares of the Company. On June 28, 2018, TSX notified the Company its acceptance of the Special Warrant Private Placement.

On July 9, September 7 and November 2, 2018, CMI has completed three tranches of the Special Warrant Private Placement and issued 4,531,999, 1,263,000 and 1,267,000 special warrant certificates for gross proceeds of approximately $271,920, $75,780 and $76,020, respectively.

As of the balance sheet date, CMI has issued 7,061,999 special warrants for aggregate proceeds of approximately $423,720. No broker or finder fees were paid on these private placement exercises.

20. Revenue

23. Net loss per share attributable to owners of the Company

The basic net loss per share calculated amount is the same as the fully diluted net loss per share amount as the Company's share-based compensation plans and warrants are anti-dilutive.

24. Related party transactions

(a) In addition to transactions detailed elsewhere in the condensed consolidated interim financial statements, the Group has the following related party transactions:

(i) As of December 31, 2018, the Group had accounts receivable of $5,345,841 (March 31, 2018: $6,315,605) from Labec Century. The balance mainly comprised of exploration expenditure of the Attikamagen property incurred and paid by the Group on behalf of Labec Century after Labec Century became the Group's joint venture. The balance is repayable upon request.

(ii) As of December 31, 2018, the Group had accounts receivable of $3,210,771 (March 31, 2018: $3,210,771) from WISCO Century Sunny Lake. The balance represented exploration expenditure of the Sunny Lake property incurred and paid by the Group on behalf of WISCO Century Sunny Lake. The balance is repayable upon request.

(b) The remuneration of the Group's directors and officers during the period is summarized below:

	Three months ended December 31, 2018	Three months ended December 31, 2017	Nine months ended December 31, 2018	Nine months ended December 31, 2017

25. Financial risk management

The Group's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk including interest rate risk, foreign currency exchange risk and capital market risk.

Risk management is carried out by the Group's management team with guidance from the Board of Directors. The Board of Directors also provides regular guidance for overall risk management.

The Group's financial assets and financial liabilities have been classified into categories that determine their basis of measurement. As at December 31, 2018 and March 31, 2018, the Group's financial instruments comprised cash and cash equivalents, short term bank deposits, marketable securities, investment in other equity instruments, trade and other receivables, trade and other payables. With the exception of cash and cash equivalents, marketable securities and investment in other equity instruments, all other financial instruments of the Group are measured at amortized cost.

The following table shows the carrying values, fair values and fair value hierarchy of the Group's financial instruments that are measured at fair value as at December 31, 2018 and March 31, 2018:

		December 31, 2018		March 31, 2018	
	Level	Carrying value $	Fair value $	Carrying value $	Fair value $
Marketable securities	1	516,874	516,874	948,640	948,640
Investment in other equity instruments	3	67,949	67,949	-	-
		584,823	584,823	948,640	948,640

Fair values of financial instruments are determined by valuation methods depending on hierarchy levels as defined below:

Level 1 – Quoted market price in active markets for identical assets or liabilities.
Level 2 – Inputs other than quoted market prices included within Level 1 that are observable for the assets or liabilities, either directly (i.e. observed prices) or indirectly (i.e. derived from prices).
Level 3 – Inputs for the assets or liabilities are not based on observable market data.

Credit risk

Credit risk is the risk of loss associated with counterparty's inability to fulfill its payment obligations. The Group's credit risk is primarily attributable to cash, marketable securities and receivables. Cash and cash equivalents and short term bank deposits are held with major banks, and marketable securities are held with a reputable securities broker with investment guidelines set by management which are intended to limit credit risk. The Group's receivables mainly represented an amount owing from its joint ventures, Labec Century and WISCO Century Sunny Lake. Management believes the risk of loss to be minimal.

Liquidity risk

The Group's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As of December 31, 2018, the Group had cash and cash equivalents and short term bank deposits of $9,162,313 (March 31, 2018: $11,989,179) to settle current liabilities of $1,974,407 (March 31, 2018: $1,644,158). Most of the Group's financial liabilities have contractual maturities of 60 days or less and are subject to normal trade terms. The liquidity risk is low with the Group's marketable securities, since they are investments with high liquidity, and are traded in international capital markets.

Market risk

Market risk is the risk of loss that may arise from changes in market factors, such as interest rates and foreign currency exchange rates and the movement in capital markets.

(a) Interest rate risk

The Group has cash balances only and it has no interest-bearing debt. The Group's current policy is to invest most of its excess cash in interest bearing accounts or term deposits with large reputable banks. The Group periodically monitors the investments it makes and is satisfied with the credit ratings of the banks holding the cash and short-term deposits of the Group. An absolute increase or decrease of 0.1% in the annual interest rate would not have a material impact on the net loss or equity at December 31, 2018.

(b) Foreign currency exchange risk

The Group's principal functional currencies are the Canadian Dollar and the Hong Kong Dollar. Sales revenue of the Group's food business is mainly denominated in Hong Kong Dollar, while the major purchases of the business are denoted in Australian Dollar and Euro. The major expenses of the Group are transacted in Canadian Dollar and Hong Kong Dollar. The Group is also subject to exchange fluctuations arising from the translation of the foreign currency monetary items of the Group's overseas subsidiaries. In addition, the Group's marketable securities, if partially denominated in foreign currency, are subject to foreign currency exchange risk.

Management closely monitors the exchange fluctuations of the principal foreign currencies of the Group's food business and uses means to lock up the foreign currency exchange rate of its purchases or transfers exchange differences to its customers to reduce the Group's foreign currency exposures. Management believes the foreign currency exchange risk derived from its other activities is low and therefore does not hedge the foreign currency exchange risk arising from these other activities.

(c) Capital market risk

The Group's current policy is to invest some portion of its excess cash in marketable securities, primarily shares of publicly listed mining companies. The Group sets investment guidelines, including pre-set targeted capital allocation and returns, exit and entry prices, and periodically monitors the investments it makes. The Group is satisfied with the financial and operating performance of the mining companies the Group invests in. An absolute increase or decrease of 5% in the investment return would not have a material impact on the net loss or deficit at December 31, 2018.

26. Capital management

The Group considers its capital structure to consist of share capital, contributed surplus and deficit, which, as at December 31, 2018, amounted to $30,060,005. When managing capital, the Group's objective is to ensure the entity continues as a going concern as well as to maintain optimal returns to the shareholders and benefits for other stakeholders. Management adjusts the capital structure, as necessary, in order to support the acquisition, exploration and development of its mineral properties. The Board of Directors does not establish a quantitative return on capital criteria for management but, rather, relies on the expertise of the Group's management team to sustain the future development of the business.

The Group is dependent on external financing to fund its strategic initiatives and exploration and project development activities in the long term. In order to carry out the business plan and pay for administrative costs, the Group will utilize its existing working capital and raise additional amounts when economic conditions permit it to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Group, is appropriate. The Group's capital management objectives, policies and processes have remained unchanged during the period ended December 31, 2018. The Group is not subject to externally imposed capital requirements.

27. Comparative figures

Certain comparative figures have been reclassified to conform to the presentation in the current period.
